International Journal of Geographical Information Systems

Taylor & Francis, London, Washington, DC

Contents of Volume 10

Number 1

Special Issue
UK Developments in Environmental GIS: In honour of T. Coppock

Frontispiece 1

Editorial. P. Fisher and N. Stuart 3

Professor Terry Coppock and IJGIS: A tribute. 7

Guest Editorial

UK Developments in environmental GIS. A. J. Strachan and N. Stuart 17

Review Article

The rural data infrastructure. R. Haines-Young and C. Watkins 21

Research Articles

Environmental information systems developments for planning sustainable land use. S. H. Hallett, R. J. A. Jones and C. A. Keay 47

Discovering environmental data: metadatabases, network information resource tools and the GENIE system. D. Medyckyj-Scott, M. Cuthbertson and I. Newman 65

Review Article

A review of current issues in the integration of GIS and remote sensing data. G. G. Wilkinson 85

Research Articles

The application of GIS for flood defence in the Anglian Region: developing for the future. D. J. Leggett and A. Jones 103

A GIS for desert locust forecasting and monitoring. R. G. Healey, S. G. Robertson, J. I. Magor, J. Pender and K. Cressman 117

Book Reviews 137

Number 2

Research Articles

Lattice rings: coordinates for self-similar hierarchies and their relevance to geographic information systems. S. B. M. Bell and F. C. Holroyd 147

Logical data modelling for geographical applications. T. Hadzilacos and N. Tryfona 179

A constant key length coding scheme for linear quadtrees. H. Ker-Chang Chang and Chung-Yu Liou 205

Design of a view-based DSS for location planning. T. A. Arentze, A. W. J. Borgers and H. J. P. Timmermans 219

Book Reviews 237

Erratum
A land evaluation project in Greece using GIS and based on Boolean and fuzzy set methodologies. D. A. Davidson, S. P. Theocharopoulos and R. J. Bloksma 245

Announcement 247

Reviewer Acknowledgments 249

Number 3

Research Articles

Improving locational specificity of map data—a multi-resolution, metadata-driven approach and notation. G. Dutton 253

Qualitative spatial reasoning: cardinal directions as an example. A. U. Frank 269

Outside-in: an alternative approach to forest map digitizing. C. M. Gold, J. Nantel and W. Yang 291

Comparison of routing algorithms for digital elevation models and their implications for predicting ephemeral gullies. P. J. J. Desmet and G. Govers 311

Mapping the spatial distribution of forest fire danger using GIS. E. Chuvieco and J. Salas 333

Technical Communication

The role of root-mean-square error in the geo-transformation of images in GIS. M. Morad, A. I. Chalmers and P. R. O'Regan 347

Book Reviews 355

Number 4

Research Articles

GIS users observed. C. Davies and D. Medyckyj-Scott 363

Implementation of GIS in India: organizational issues and implications. S. Sahay and G. Walsham 385

A comparison of optimal classification strategies for choroplethic displays of spatially aggregated data. R. G. Cromley 405

A computerised decision support system for rural policy formulation. P. M. Watson and R. A. Wadsworth 425

Classification of kangaroo habitat distribution using three GIS models. A. K. Skidmore, A. Gauld and P. Walker 441

Quantifying soil variability in GIS applications: II. Spatial distribution of soil properties. A. S. Rogowski 455

Toward consensus on a European GIS curriculum: the international post-graduate course on GIS.1K. K. Kemp and A. U. Frank 477

Technical Note

The *b*-function and variable stream buffer mapping: a note on 'A GIS method for riparian water quality buffer generation'. Wei-Ning Xiang and W. L. Stratton 499

Book Reviews 511

Number 5

Guest Editorial

Modelling uncertainty and spatial dependence: Stochastic imaging. A. G. Journel 517

Research Articles

Efficient methods for isoline extraction from a TIN. M. Van Kreveld 523

Representing the visibility structure of a polyhedral terrain through a horizon map. L. De Floriani and P. Magillo 541

Natural trees—neighbourhood-location in a nutshell. D. F. Watson and A. I. Mees 563

Fuzzy representation of geographical boundaries in GIS. F. Wang and G. Brent Hall 573

Use of the weighted Kappa coefficient in classification error assessment of thematic maps. E. Næsset 591

The geography of parameter space: an investigation of spatial non-stationarity. A. Stewart Fotheringham, M. Charlton and C. Brunsdon 605

Modelling topographic potential for erosion and deposition using GIS. H. Mitasova, J. Hofierka, M. Zlocha and L. R. Iverson 629

A spatial data model design for feature-based geographical information systems. A. Y. Tang, T. M. Adams and E. Lynn Usery 643

Book Reviews 661

Number 6

Special Issue
Parallel Processing in GIS
Edited by Richard G. Healey

Editorial 667

Research Articles

Spatial strategies for parallel spatial modelling. Y. Ding and P. J. Densham 669

Developing parallel procedures for line simplification. J. E. Mower 699

Local interpolation using a distributed parallel supercomputer. M. P. Armstrong and R. J. Marciano 713

Parallel polygon line shading: the quest for more computational power from an existing GIS algorithm. S. C. Roche and B. M. Gittings 731

Parallel processing on heterogeneous networks for GIS applications. A. Clematis, B. Falcidieno and M. Spagnuolo 747

Strategies for real-time spatial analysis using massively parallel SIMD computers: an application to urban traffic flow analysis. D. Xiong and D. F. Marble 769

Number 7

GIS and geometric representation in facility location problems H. J. Miller 791

Characteristic mean and dispersion in surface orientations for a zone M. E. Hodgson and G. L. Gaile 817

Assessing hazardous waste transport risks using a GIS J. Brainard, A. Lovett and J. Parfitt 831

Sampling and mapping of heterogeneous surfaces: multi-resolution tiling adjusted to spatial variability F. Csillag, M. Kertész and Á. Kummert 851

Review Article

GIS and remote sensing integration for environmental applications J. C. Hinton 877

Technical Communication

Landscape 'contagion' in raster and vector environments J. D. Wickham, K. H. Riitters, R. V. O'Neill, K. B. Jones and T. G. Wade 891

Number 8

Database design for a multi-scale spatial information system. C. B. Jones, D. B. Kidner, L. Q. Luo, G. Ll. Bundy and J. M. Ware 901

Identification of field attribute error under different models of spatial variation. G. B. M. Heuvelink 921

A CORINE map of Great Britain by automated means. Techniques for automatic generalization of the Land Cover Map of Great Britain. R. Fuller and N. Brown 937

A GIS-based approach to multiple criteria group decision-making. J. Malczewski 955

An assessment of surface and zonal models of population. D. Martin 973

A geographical information system to facilitate military housing management. G. A. Forgionne, R. F. Loane and T. C. Armstrong 991

Technical Communication

Weight matrices and spatial autocorrelation statistics using a topological vector data model. A. Can 1009

Index of Authors 1019
